

## Ei Khaing Soe - ( FrontEnd Developer )

Date of Birth : January 29, 1996  
Phone : 09456639939  
Address : Aung Myittar 7 th street, Hlaing Township  
Email : [eikhaingsoe.ycc@gmail.com](mailto:eikhaingsoe.ycc@gmail.com)  
GitHub : <https://github.com/EkhaingSoe>  
LinkedIn : <https://www.linkedin.com/in/ei-khaing-soe-b025542a3/>

## Career Objective

Experienced Front-End Developer with 4+ years of experience specializing in building responsive web applications in [eCommerce](#), [ERP systems](#), [POS systems](#) and [Real-Estate Management System](#). Expertise in JavaScript frameworks (Angular, React), state management (Redux, NgRx), and CSS frameworks (Tailwind, Bootstrap). Proven track record of optimizing performance, improving user satisfaction, and collaborating with cross-functional teams to deliver high-quality solutions.

## Technical and Soft Skills

- **Languages:** HTML5, CSS3, JavaScript, TypeScript
- **Frameworks/Libraries:** React, Angular, Redux Toolkit, NgRx, Nodejs, Nextjs
- **CSS Frameworks:** Tailwind, Bootstrap, Ant Design
- **Tools:** Git, Postman, REST APIs
- **Databases:** MongoDB
- Communication, Teamwork, Leadership
- Problem-solving, Critical Thinking
- Project Management, Time Management

## Experiences

### Front End Developer

Jan 2024- Now

### Innovation Network Technology( Yangon, Myanmar )

#### E-commerce Application

##### Responsibilities:

- Developed core eCommerce features: product listings, filtering, cart management, secure payments, order tracking, and admin dashboard.
- Integrated secure payment gateways, improving user experience with PCI-compliant solutions.
- Improved product discovery through advanced filtering and sorting (by categories, prices, sizes, etc.).
- Optimized UI/UX design for responsive interfaces using Tailwind CSS across mobile and desktop.
- Managed state efficiently with NgRx, lazy loading, and performance techniques like tree-shaking.
- Handled user authentication, including role-based access control (RBAC).

## ERP System

### Responsibilities:

- **Key Features** : Integrated ERP modules, including inventory management, order processing, financial reporting, and human resources.
- **Data Analysis and Reporting** : Advanced analytics and reporting tools for generating real-time reports, dashboards, and KPIs to support decision-making
- **Financial Management** : Includes modules for managing accounting, budgeting, tax management, and financial reporting and tracks financial transactions in real-time.
- **Inventory and Supply Chain Management**: Manages inventory levels, procurement processes, order management, and logistics and provides real-time visibility into inventory levels, demand forecasting, and supply chain optimization.
- **Human Resource Management** : Supports employee data management, payroll, recruitment, performance evaluations, and benefits administration and time tracking, attendance, and employee self-service portals.
- **Sales and Order Management** : Automates the sales process from order entry to delivery and invoicing and Integrates with inventory to ensure smooth order fulfillment.
- Integrated RESTful APIs for real-time data synchronization across workflows.
- Implemented NgRx state management for handling complex data interactions.
- Reduced load times by 30% through performance optimization.
- Developed dynamic data visualizations with ngx-charts for business insights like sales reports.
- Ensured secure access with role-based access control (RBAC).

### Key Achievements:

- Improved overall application performance by 25% through refactoring and component optimization.
- Reduced inventory stockouts, boosting order fulfillment rates by 15%.
- Spearheaded development of a financial reporting dashboard, increasing user satisfaction by 20%.

Technologies Used: **Angular , HTML, CSS, JavaScript, Tailwind, GitLab, Postman, NgRx**

---

## Front End Developer

Dec 2022- Dec 2023

Unity Source ( Yangon, Myanmar )

### POS system for Mobile Shops

### Responsibilities:

- **Developed POS features** such as real-time sales tracking, product scanning, and discount application, payment management, delivery management, order management system, purchase management system.
- **Designed and implemented inventory management** features, including automated low-stock alerts and real-time inventory updates across multiple stores.
- **Integrated multiple payment methods**, including credit cards, mobile payments, and store credits, ensuring a seamless checkout experience.
- **Built reusable and modular UI components** for managing customers, products, and transactions within a multi-store environment.
- **Implemented role-based access control (RBAC)** for secure store-specific interfaces, ensuring each

store manager and cashier has the appropriate level of access.

- **Created a responsive, user-friendly interface** using Tailwind CSS for ease of use across desktops, tablets, and mobile devices.
- **Optimized performance** for faster transaction processing and minimal downtime, improving checkout speed by 20%.
- **Collaborated with back-end developers** to integrate REST APIs for real-time data synchronization between POS terminals and the server.
- **Debugged and resolved issues** related to transaction errors, payment failures, and customer record discrepancies.

Technologies Used: **React , HTML, CSS, JavaScript, Tailwind, Redux Toolkit, Github, Agile Development**

---

## Front end developer

Jan 2021 - Nov 2022

**MMSIT ( Yangon, Myanmar )**

**Real Estate Management System**

Responsibilities:

- Developed agent management dashboards with secure authentication and authorization.
- Implemented appointment scheduling, property management, and client interaction tracking.
- Enhanced property search functionalities with advanced filtering and property status tracking.
- Built transaction management features, including secure payment processing.

Technologies Used : React, Redux Toolkit, HTML, CSS3, JavaScript, Tailwind, Ant Design, Github

## Education

**Bachelor of Engineering ( Electronic Engineering )**

2013-2019

University of Technology ( Yatanarpon Cyber City )

## IT courses and certification

**MMS IT Solution**

May 2020 - Dec 2020

( Special Web Design Class )

( Web Application Development Class )

**Udemy React Course Class**

## Language

- Japanese ( N3 certification )
- English ( Intermediate Level )
